Education

2022 — 2026

**B.Tech in Computer Science Engineering | Dr. A.P.J. Abdul Kalam
Technical University (AKTU)**

Summary

Entry-level Frontend Developer with a strong foundation in building responsive and user-friendly web interfaces. Skilled in HTML, CSS, and JavaScript; with a focus on creating clean UI and smooth user experience. Familiar with modern web development practices and version control. Eager to contribute to dynamic development teams and enhance frontend performance.

Experience

September 2024 — November 2024

Cyber Security Intern | Internselite

- Developed strong problem-solving and analytical thinking skills
- Worked on real-world scenarios requiring attention to detail and debugging

Cyber Job Simulation Participant | Deloitte Australia

- Completed tasks focused on analysis and structured problem-solving
- Improved understanding of system workflows and technical documentation

Projects

Responsive Portfolio Website

Designed and developed a fully responsive personal portfolio using React, HTML, CSS, and JavaScript. Showcases skills, projects, and contact information with a modern and interactive UI. Optimized for mobile, tablet, and desktop devices. Deployed on Vercel with GitHub integration for continuous updates.

Technologies Used: React, HTML, CSS, JavaScript, Vercel, GitHub

CineFlow – Movie Discovery Platform

Built a movie web application that allows users to discover trending and popular movies with detailed information including ratings, overviews, and posters. Implemented API integration, dynamic routing, and responsive design to ensure a smooth and engaging user experience. Deployed on Vercel with performance optimization.

Technologies Used: React, JavaScript, API, CSS, Vercel

Gallery App

Developed a responsive image gallery application with a clean and minimal UI. Implemented image filtering and dynamic rendering for a seamless browsing experience. Ensured cross-device compatibility and optimized performance for faster load times. Deployed using Vercel with GitHub version control.

Technologies Used: React, JavaScript, CSS, Vercel, GitHub
